

Maintained products last longer

PLAZA FRESHENER

The care we give our wood products does not stop just because they leave our factory to be distributed through out the world.

Our products are of high quality and we would of course like to see that the park benches and tables you purchase last and look nice for many years to come.

We recommend all our customers to treat HAGS wood products at least once a year to prolong the life and keep a fresh appearance of the product.

The interval between the treatments are determined by where the products are placed and the weather conditions.

Clean your wood products with HAGS Cleaner and let the material dry. Then treat with HAGS Finisher for longer durability.

PLAZA Freshener cleaning kit consists of:

HAGS Cleaner to clean the product.

HAGS Finisher for longer durability.

Rag, sponge and plastic glove.

HAGS Advice. Leaflet with advice on how to care for your HAGS furniture.

PLAZA FRESHENER

Art. no. R353 500

FIELD OF APPLICATION

Restoration of dull surfaces that have been exposed to weather and wind. Suits park benches, tables and benches as well as HAGS wooden screens. Top be applied with a soft brush, sponge or with a rag.
