

## Reaching the sky with HAGS Totem

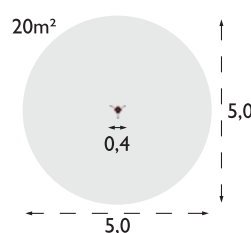

Totem is a new Solo item from HAGS. A climbing pole with a high level of inspiration.

– To climb both stimulates and improves your skills. With its height Totem gives excitement and an extra challenge. When you climb higher you automatically have to sharpen your focus.

The color plates at the top, green, yellow and red can be reached in a variety of ways. Starting from the same spot on the ground but aiming for a different color is also a choice of the best way to reach the top. And when you're up there, four meters above the ground, you'll have a great view of the playground.

– Totem suits the five to twelve year old and is a good complement on the play ground. With its weight and colors it satisfies the childrens curiosity and wish to climb.
