

HAGS REDDY - A Swing seat for two

It is time to switch tyres - at the play ground. HAGS is striving to be at the forefront regarding quality and environmental issues. It has been shown that rubber tyres contain high aromatic oils that can be hazardous to your health. Because of this we have decided to already now follow the rules that TÜV, who certifies play equipment in accordance with the european standard, have introduced. HAGS has because of this developed the new swing seat, Reddy, which now replaces the tyre seat.

HAGS Reddy is a is a large, nice swing seat where two children can swing together. It is strong and durable and allows us to take yet another step towards a better play environment for our children.

HAGS REDDY

124 831	5 mm chain
124 832	5 mm plastic coated chain
124 833	6 mm chain
